Smart Transport Expo*

## IMPORTANT NOTICE

### **Connected Auto & Smart Transport expo 2020 Postponement Announcement**

In response to the recent outbreak of the Coronavirus Disease (COVID19) in China and the surrounding regions, and to ensure the safety of our exhibitors and visitors, the Organizing Committee of the 2020 Connected Auto & Smart Transport expo (CASTex) has decided to reschedule the event, which was to be held in Guangzhou from 22-24 June 2020, till the fourth Quarter of 2020.

The well-being of all the event's participants is of prime importance to us and we made this difficult decision with their best interest in mind, after consultation with our partners and with consideration of information and advices from the China government and local authorities. We will continue to closely monitor the situation and will announce the new dates for the event as soon as possible.

Furthermore, building on the solid ground work done for the event, we will also take this opportunity to revisit the show format, in order to further enhance its responsiveness to market expectations; its connection to global communities, and its effectiveness as the trade platform for the connected auto & smart transport industries.

On behalf of the CASTex Organizing Committee, we thank all supporting partners and participating companies for your understanding, and sincerely apologize for any inconvenience caused by the postponement. Please be assured that we will keep you well-informed of any updates about CASTex 2020.

May us join hands together to fight the epidemic and overcome all the difficulties!
